

## **AIRSPACE GAS MONITORS** (CO and Methane)

**Finally, Gas Detectors You Can Afford To Own!**

ESS-Airspace has a number of gas monitor models, options, and accessories tailored to meet your particular needs. ESS-Airspace gas monitors offer the following benefits and features:

- **Lifetime Warranty**- “sniffer” models, 5 year on all others models
- **Reliable ACS Technology™** - consistent solid-state sensor performance.
- **Low maintenance** - no routine calibration or sensor replacement.
- **Easy to use** - simple on/off with single alarm silence button.
- **Cost effective** - low cost of ownership.
- **Lightweight, rugged design** - weighs just 26 grams with batteries!
- **Portable** - shirt-pocket size measures just 100 x 58 x 23 mm!
- **Certified intrinsically safe** - approved by Underwriter's Laboratory, Inc. for use in Class 1, Division 1, Groups A, B, C, and D environments.
- **Low battery warning** - battery low and battery dead indication.
- **Audible and visual alarm indicators** - alarms at CO levels of 30, 60, 120 ppm and CH<sub>4</sub> level at 5000 ppm.
- **Vibrating alarm indicator option** - alerts user to danger even in noisy environments.
- **CO only and CO with Methane versions available** - more functionality for little added cost.
- **Data-Logger versions available** - record ambient gas levels for later analysis.
